
Proposed Solution Template

Project Name: *Flight Finder: Navigating Your Air Travel Options*

Date: *27 June 2025*

Team ID: *LTVIP2025TMID49881*

Maximum Marks: *2 Marks*

Problem Statement

Clearly describe the key problem faced by users.

- Example: *Travelers face difficulty in comparing flight prices, schedules, and policies across multiple platforms, leading to confusion and wasted time.*
-

Objectives

List what the solution aims to achieve.

- Simplify flight search & comparison
 - Provide real-time updates and transparent pricing
 - Enhance user experience with personalized recommendations
-

Proposed Solution

Outline the main idea of your solution.

- **Solution Name:** *Flight Finder*
- **Description:**
A web/mobile platform that aggregates flight data from multiple airlines, compares

prices, and provides easy booking options with real-time notifications.

4 Key Features

-  Smart flight search & filtering
 -  Price comparison with no hidden charges
 -  Real-time flight updates & delay alerts
 -  Personalized travel suggestions
 -  Easy booking & refund process
-

5 Benefits to Users

- Save time by seeing all flight options in one place
- Get the best deal with transparent pricing
- Reduce stress with timely updates
- Enjoy a seamless and user-friendly travel experience
